BCOM CA –I Semester

Important Questions for FIT

UNIT-I

1. What is Computer? Explain the Characteristics of Computers?
2. What is Computer? Draw a neat sketch of Computer (Block Diagram of Computer)?
3. Explain the Classification of Computer (or) Types of Computer?
4. Explain the Input and Output Devices with Example?

UNIT-II

1. Explain the Binary Arithmetic Operations with Example?
2. Explain the Number System with its types?
3. Explain the Conversion from one number system to another with Example?
4. What is Primary Memory? Explain the Types of Primary Memory?
5. What is Secondary Memory? Explain the Types of Secondary Memory?

UNIT-III

1. What is Software? Explain the Types of Software?
2. What is Programming Language? Explain the Types of Programming Languages?

UNIT-IV

1. What is Operating System? Explain the Functions of Operating System?
2. What is Operating System? Explain the Types of Operating System?
3. Explain Key benefits and Features of Windows?

UNIT-V

1. What is Computer Network? Explain the Basic Networking Devices?
2. What is Data Transmission? Explain the Types of Data Transmissions?
3. What is Network? Explain the Type of Networks?
4. Explain Network Topology With Its Types?
5. What is Computer Protocol? Types of Protocols?
